

## Fuel Systems Specialists

### Jigsaw Nova

- ( Live fuelling transaction data
- ( Automated email/SMS text alarms
- ( Immediate alarms for fuel stock leaks/theft
- ( Low stock/re-order & overfill alarms
- ( Visibility of all data via any web browser

The Jigsaw Nova gives you LIVE fuelling information, when and where you want it, at an affordable price

#### Lowest Cost, Web Connected Hardware

The Nova Fuel Management System is our single pump, no frills, lowest cost offering, but it retains all the power and advantages of a web based fuel management system.

The system can operate on the same network as the Jigsaw Eclipse system, giving a lower cost alternative to the Eclipse for less used sites.

#### Move From Once a Day to All the Time!

Because the system is linked directly from the fuel island to the web site, there is no need for daily polling – all information is updated as it happens.

##### Just some of the benefits :

- All fuelling data displayed immediately via the internet.
- Stock figures are always current.
- Immediate low stock warnings.
- Immediate notification of pumps disabled.

#### Live information gives Enhanced Security

Because the system uses mobile phone technology, the terminal can send texts and e-mails directly to on-site staff.

##### Just some of the benefits :

- Immediate notification of attempted use of blocked or stolen keys.
- Immediate text alarms raised on tank stock leak/theft.

# Jigsaw Nova Fuel Management System - Gives you LIVE fuelling information

## Nova Fuel Island Hardware

- User interface – numeric keyboard, four line LCD backlit display.
- Ultra reliable RFID tag reader.
- Non corroding, heavy duty, stainless steel enclosure.
- Full suite of managers functions.
- Optional automated, real time alarms by SMS messaging for fuel theft or system misuse.
- Optional tank gauge interface – direct wired or low cost radio gauge.

**Time makes a small problem into a crisis – stay on top with live information !**

## Web Based Fuelling information

- Access to data from any web enabled PC or phone, using a secure login facility.
- Only standard web browser required – No system specific software to install or maintain on site.
- Additions and amendments have immediate effect at all fuelling locations in your network.
- No daily polling of fuel island terminals to manage – minimum daily support.
- Software updates and enhancements managed centrally removing the need for expensive site visits.
- A unique quick view gives simple summary of entire network.
- True multi user system giving local and/or central data management and reporting.
- Seamless integration with vehicle tracking systems.
- Seamless data export to fleet management software.
- Web based fuel card data import.
