

SPECTRA

Electronic Wall/Tank Mount Diesel Pumps

The **SPECTRA RANGE** of pumps for dispensing diesel & biodiesel up to B30 are compact, low cost & easy to operate units for the small fleet operator. Can be used with new or existing above ground fuel storage tanks. Ideal for refuelling cars, vans, light trucks, agricultural machinery, plant, forklift trucks & refrigeration units on trailers. **Ideal for use with top/bottom suction outlet tanks.**

Pumping Speed: Choose 50 litres per minute version for filling cars & vans, 70L/min for filling small trucks & 90L/min for filling vehicles with larger fuel tanks, coaches, buses & articulated trucks.

Accuracy: How accurately do you need to measure your fuel bill? Spectra pumps are accurate to +/- 0.5%.

Simple to Operate: Remove nozzle from holster & switch pump on. Reset display to zero, refuel vehicle & return nozzle back to holster. Switch pump off.

Key/Card System Interface: These pumps can easily be interfaced with most new or existing fuel management systems.

Simple to Install: Simple, means economical & hassle free, wall mounting. (Option available with security cabinet).

Protection: Weatherproof & robust to IP55 for outdoor use.

Security: Nozzle can be padlocked to holster. Lockable cabinet version also protects hose & nozzle when not in use.

Display: The large, easy to read electronic display can be reset after each refuelling. A separate non-reset totaliser keeps track of your long term fuel usage.

Supplied With: 4m outlet hose & automatic nozzle which shuts off when the vehicle tank is full to prevent spills.

SUITABLE FOR USE ON ABOVE GROUND FUEL STORAGE TANKS ONLY. NOT CURRENTLY SUITABLE FOR RESALE OR FOR USE WITH FLAMMABLE LIQUIDS.

Stk Code	Description
SPS.PEE	230V 56L/min, 5 digit meter.
SPM.PEE	230V 72L/min, 5 digit meter.
SPU.PEE	230V 90L/min, 5 digit meter.
